Prompting:

ChatGPT Prompt:

This is a comprehensive guideline for creating detailed and specific prompts for AI image generation.

The format is: "[STYLE OF PHOTO] photo of a [SUBJECT], [IMPORTANT FEATURE], [MORE DETAILS], [POSE OR ACTION], [FRAMING], [SETTING/BACKGROUND], [LIGHTING], [CAMERA ANGLE], [CAMERA PROPERTIES], in style of [PHOTOGRAPHER]"

Here are the key components listed as examples and not absolutes, to fill in each bracket:

**STYLE OF PHOTO:** Analog, candid, beauty, high fashion, instant, large format, glamor, lifestyle, paparazzi, pictorialist, Polaroid, use others not listed as an example as appropriate and/or for variation.

**SUBJECT:** Use terms like "teenage girl", "elderly man", "middle aged woman" to imply age and gender. The tag "age followed by a number" like "age 30" can further pin down age. Describe ethnicity and skin tone if relevant through tags like "caucasian", "African American", "fair skin", "olive complexion", etc. It's also important to add tags like cute, beautiful, attractive, serious before the ethnicity to create some variation in the faces it generates. Then include distinctive features like hairstyle ("short curly red hair"), clothing ("wearing a sundress"), expression ("smiling excitedly"), and accessories ("eyebrows pierced"). Unique details make the subject feel more like a specific individual.

**FRAMING:** Close up on the face, full body, head shot, upper body, from behind, use others not listed as an example as appropriate and/or for variation.

**SETTING/BACKGROUND:** Provide relevant contextual details but avoid being overly prescriptive. An example could be: "on the rocky edge of a cliff overlooking a misty forested valley at dawn".

**LIGHTING:** Bounced lighting, candid lighting, chiaroscuro, cinematic lighting, soft diffused lighting, edge lighting, fill lighting, flash photography, god rays, golden hour, use others not listed as an example as appropriate and/or for variation.

**CAMERA ANGLE:** Dutch angle, from above/high angle, from below/low angle, eye level.

**CAMERA PROPERTIES:** Aaton LTR, ARRI ALEXA 65, Bolex H16, RED Digital Cinema Camera, Canon EOS 5D, Fujifilm X-T4, Hasselblad X1D II, Lumix GH5, Pentax 645Z, use others not listed as an example as appropriate and/or for variation.

**PHOTOGRAPHER:** Choose a photographer that fits the style of the image. For example, "by Vivian Maier".

Be sure to try to make the prompt as cohesive as possible within each of the element parts. Subject and setting are usually the driver, feel free to be creative. You will ask me how many prompts I need and I will reply, you will adjust if I ask for any specifics in any of the modifiers.

Prompt-Frames:

Realistic Portraits	
Positive	(*Prompt* ), detailed eyes, detailed face, detailed skin, high detailed, extremely high detailed, insane details, ultra high textures, 8k, 8k uhd, best quality,
Negative	(watermark:2), (deformed, distorted, disfigured), (bad eyes, wrong lips, weird mouth, bad teeth, mutated hands and fingers:1.2),(bad anatomy), cartoon, painting, illustration, sketch, anime, manga, wrong anatomy, amputation, extra limb, missing limb, floating limbs, disconnected limbs, mutation, ugly, disgusting, (signature, watermark, username, blurry, artist name),
Abstract/Fantasy Land-/Cityscapes	
Positive	(*Prompt* ), high detailed, extremely high detailed, insane details, ultra high textures, 8k, 8k uhd, best quality,
Negative	(watermark:2),(signature, watermark, username, blurry, artist name),

Model comparison

Realistic Photos/Portraits:

Theme #01 – People in their traditional clothings

Prompt #01 – Marrocan Man in Marrakech:

High-resolution portrait of a middle-aged Moroccan man with olive skin and a neatly trimmed beard, wearing a traditional djellaba and fez. He is captured in an upper body shot, leaning against the colorful mosaic walls of a Marrakech riad, natural soft lighting enhancing the intricate textures. Photographed in the vivid yet intimate style of Hassan Hajjaj.

Fantasy Nature – Plants:

Fantasy Nature – Animals:

Fantasy Land-/Cityscapes:

Theme #01 – Dystopic Cityscapes:

Prompt #01 – Overgrown City Alley:

Illustration depicting a narrow alley in a dystopian city, overgrown with mechanical vines and glowing fungi. A lone figure, wearing a tattered cloak, navigates the alley. The scene is framed from a low angle, emphasizing the oppressive, towering walls. The setting features dim, eerie lighting, reminiscent of the style seen in Moebius' illustrations.

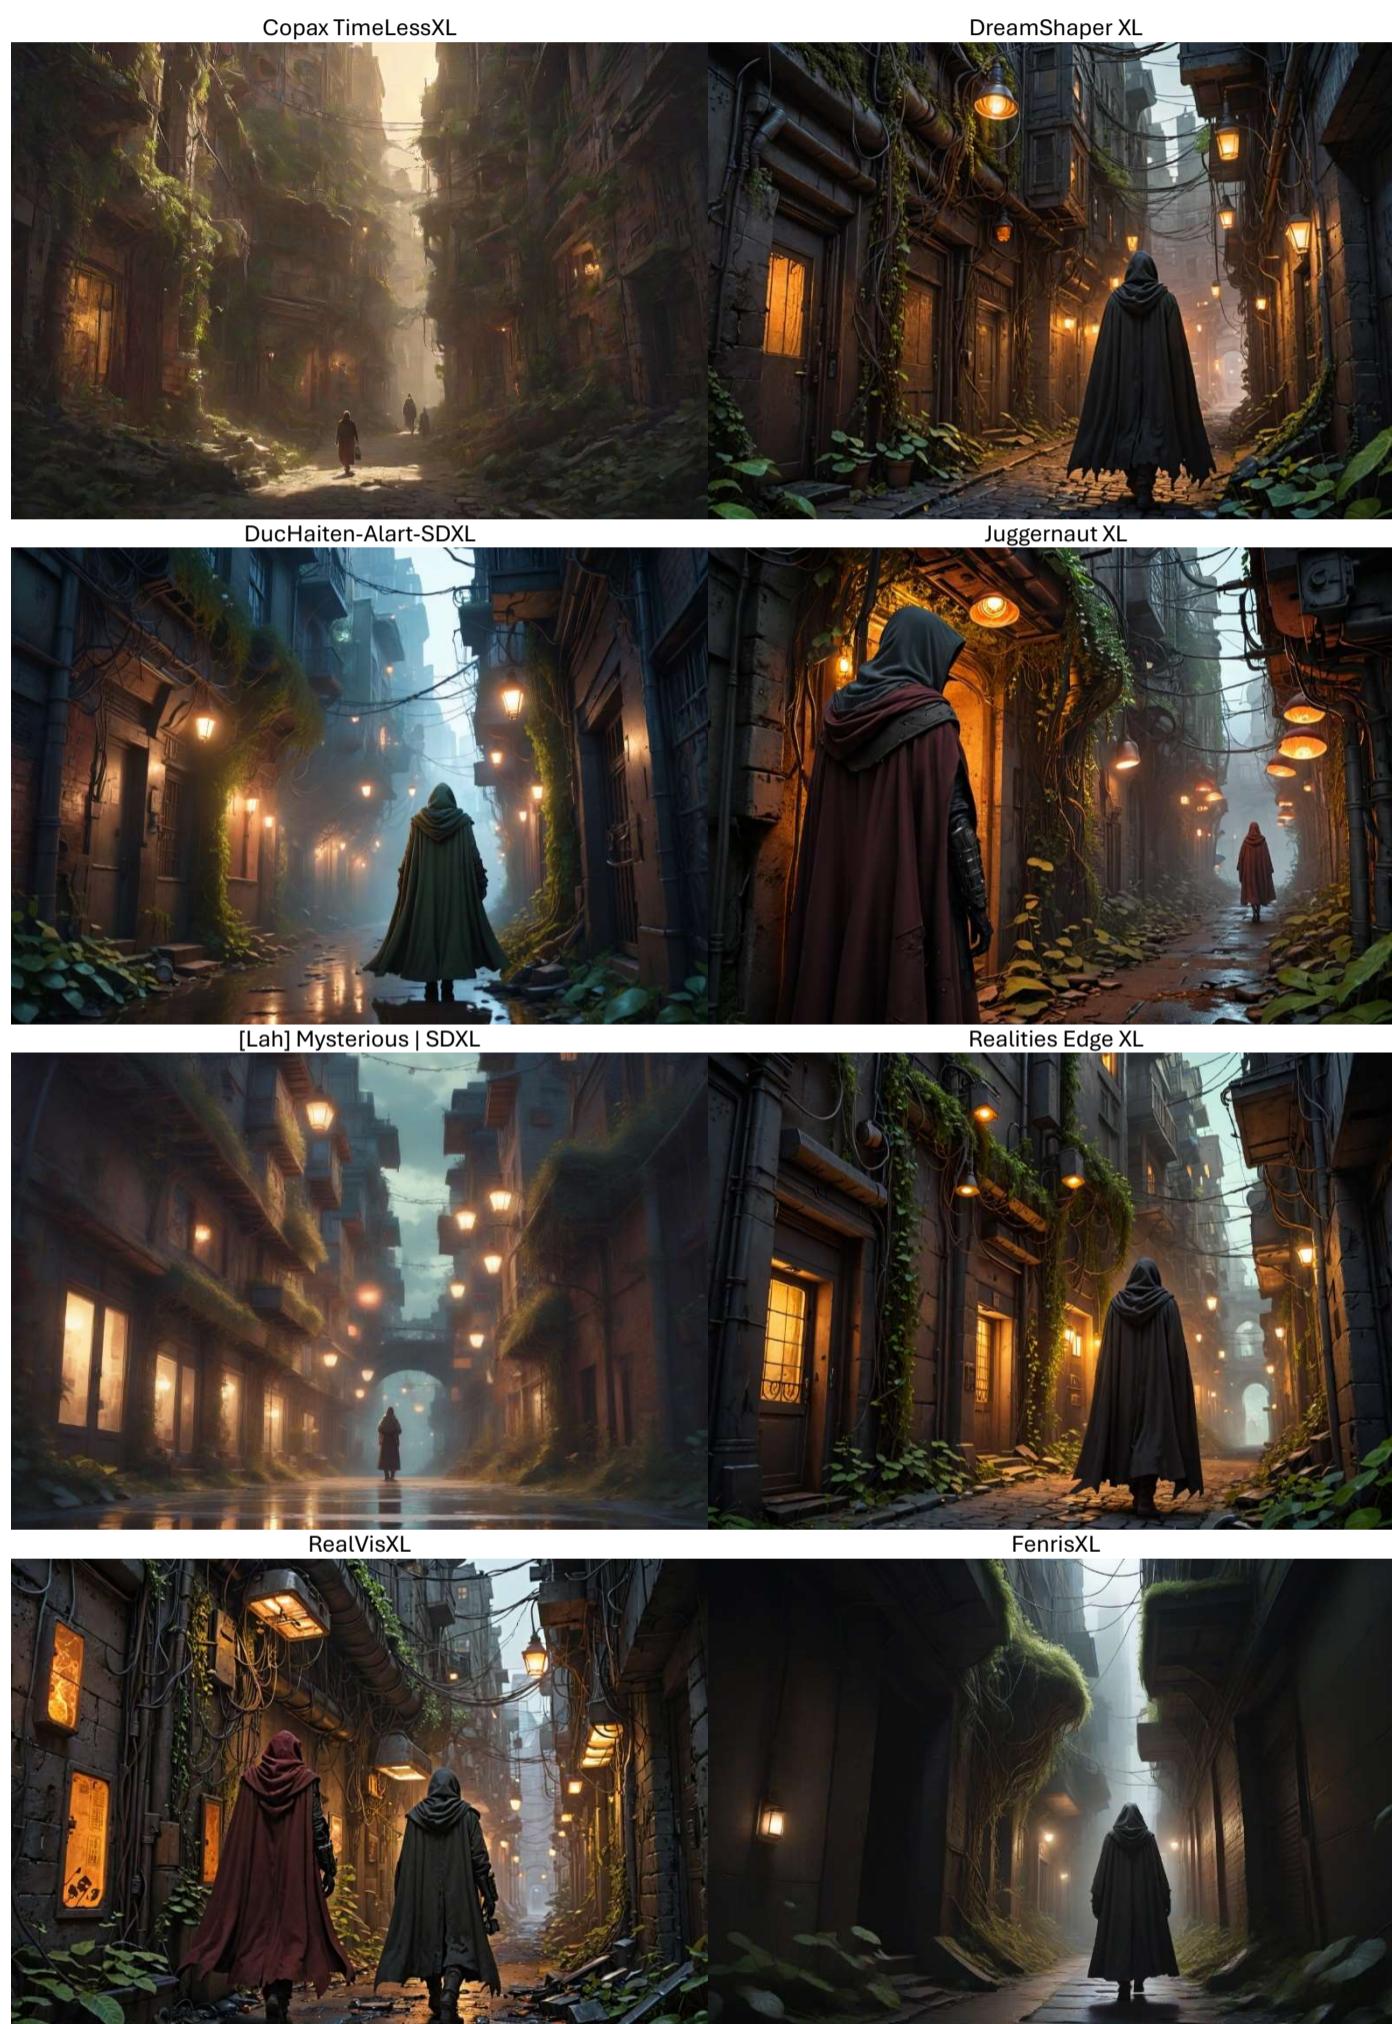

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 90698572

Prompt #02 – Future Motion:

Futurist Painting capturing the dynamic energy of a dystopian city in motion, with blurred lines suggesting rapid movement of flying cars and pedestrians. The colors are stark, with heavy use of black and white to highlight the harsh lighting of neon signs. Inspired by the works of Umberto Boccioni.

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 2052592030

Prompt #03 – Dystotic:

Art Deco Illustration of a dystopian metropolis, showcasing a symmetrical design of towering skyscrapers with geometric motifs. The scene is set at night, illuminated by harsh artificial lights and a monochrome palette, evoking the style of Tamara de Lempicka.

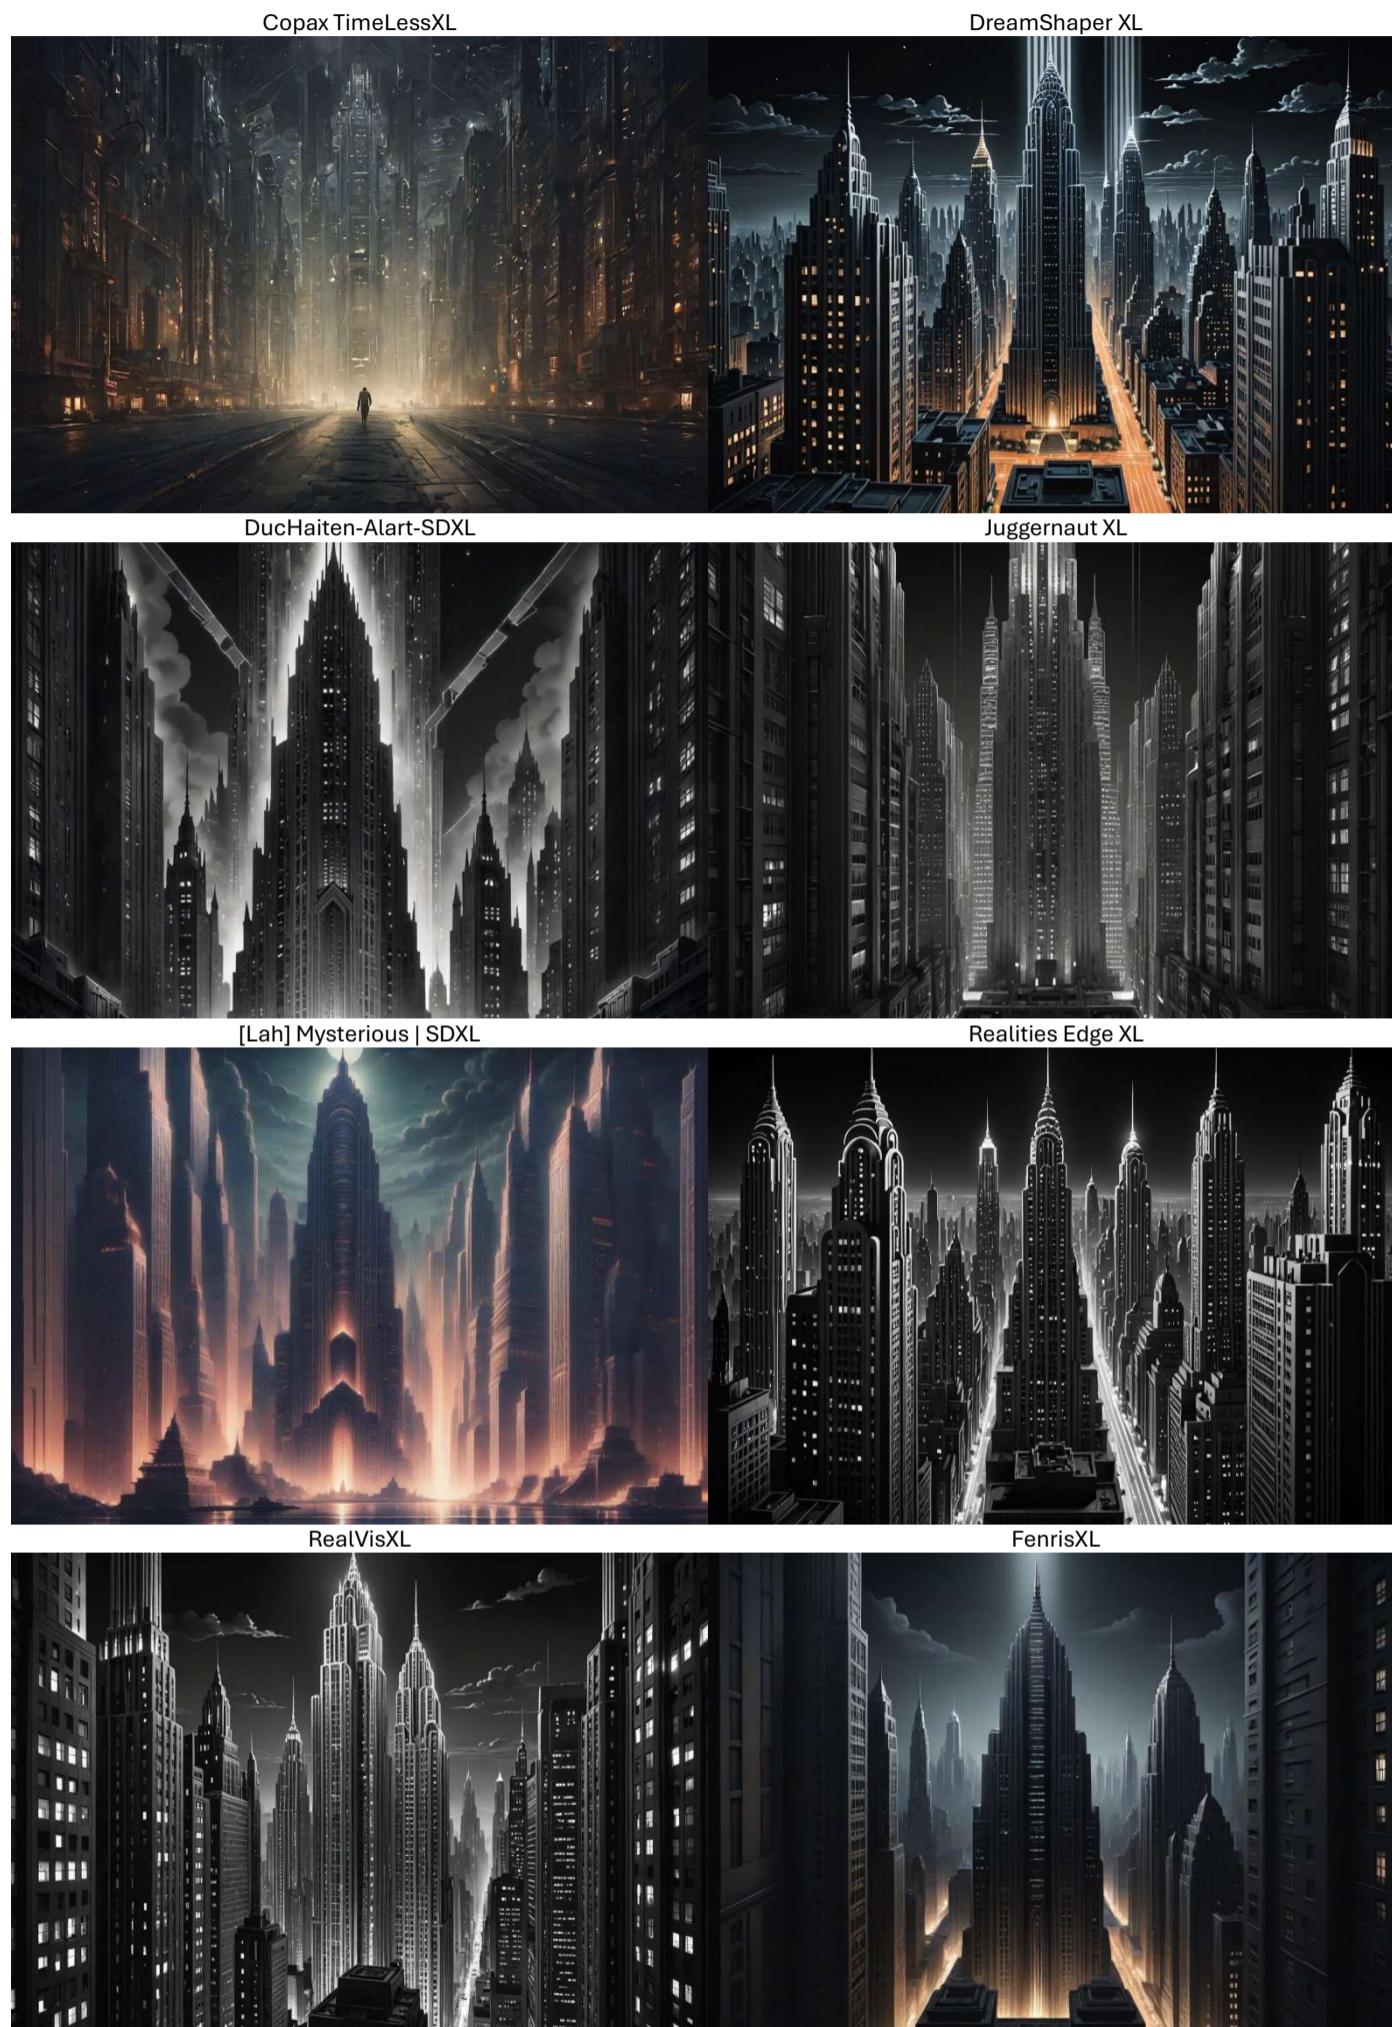

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 1875459904

Prompt #04 – City in Thorns:

Neo-Baroque Painting of a dystopian cityscape, focusing on elaborate ornamentation of decaying buildings wrapped in thorny vines. The scene is set in a plaza with a statue of a forgotten deity, using dramatic lighting and shadow to create a mood of decline and excess, inspired by Peter Paul Rubens.

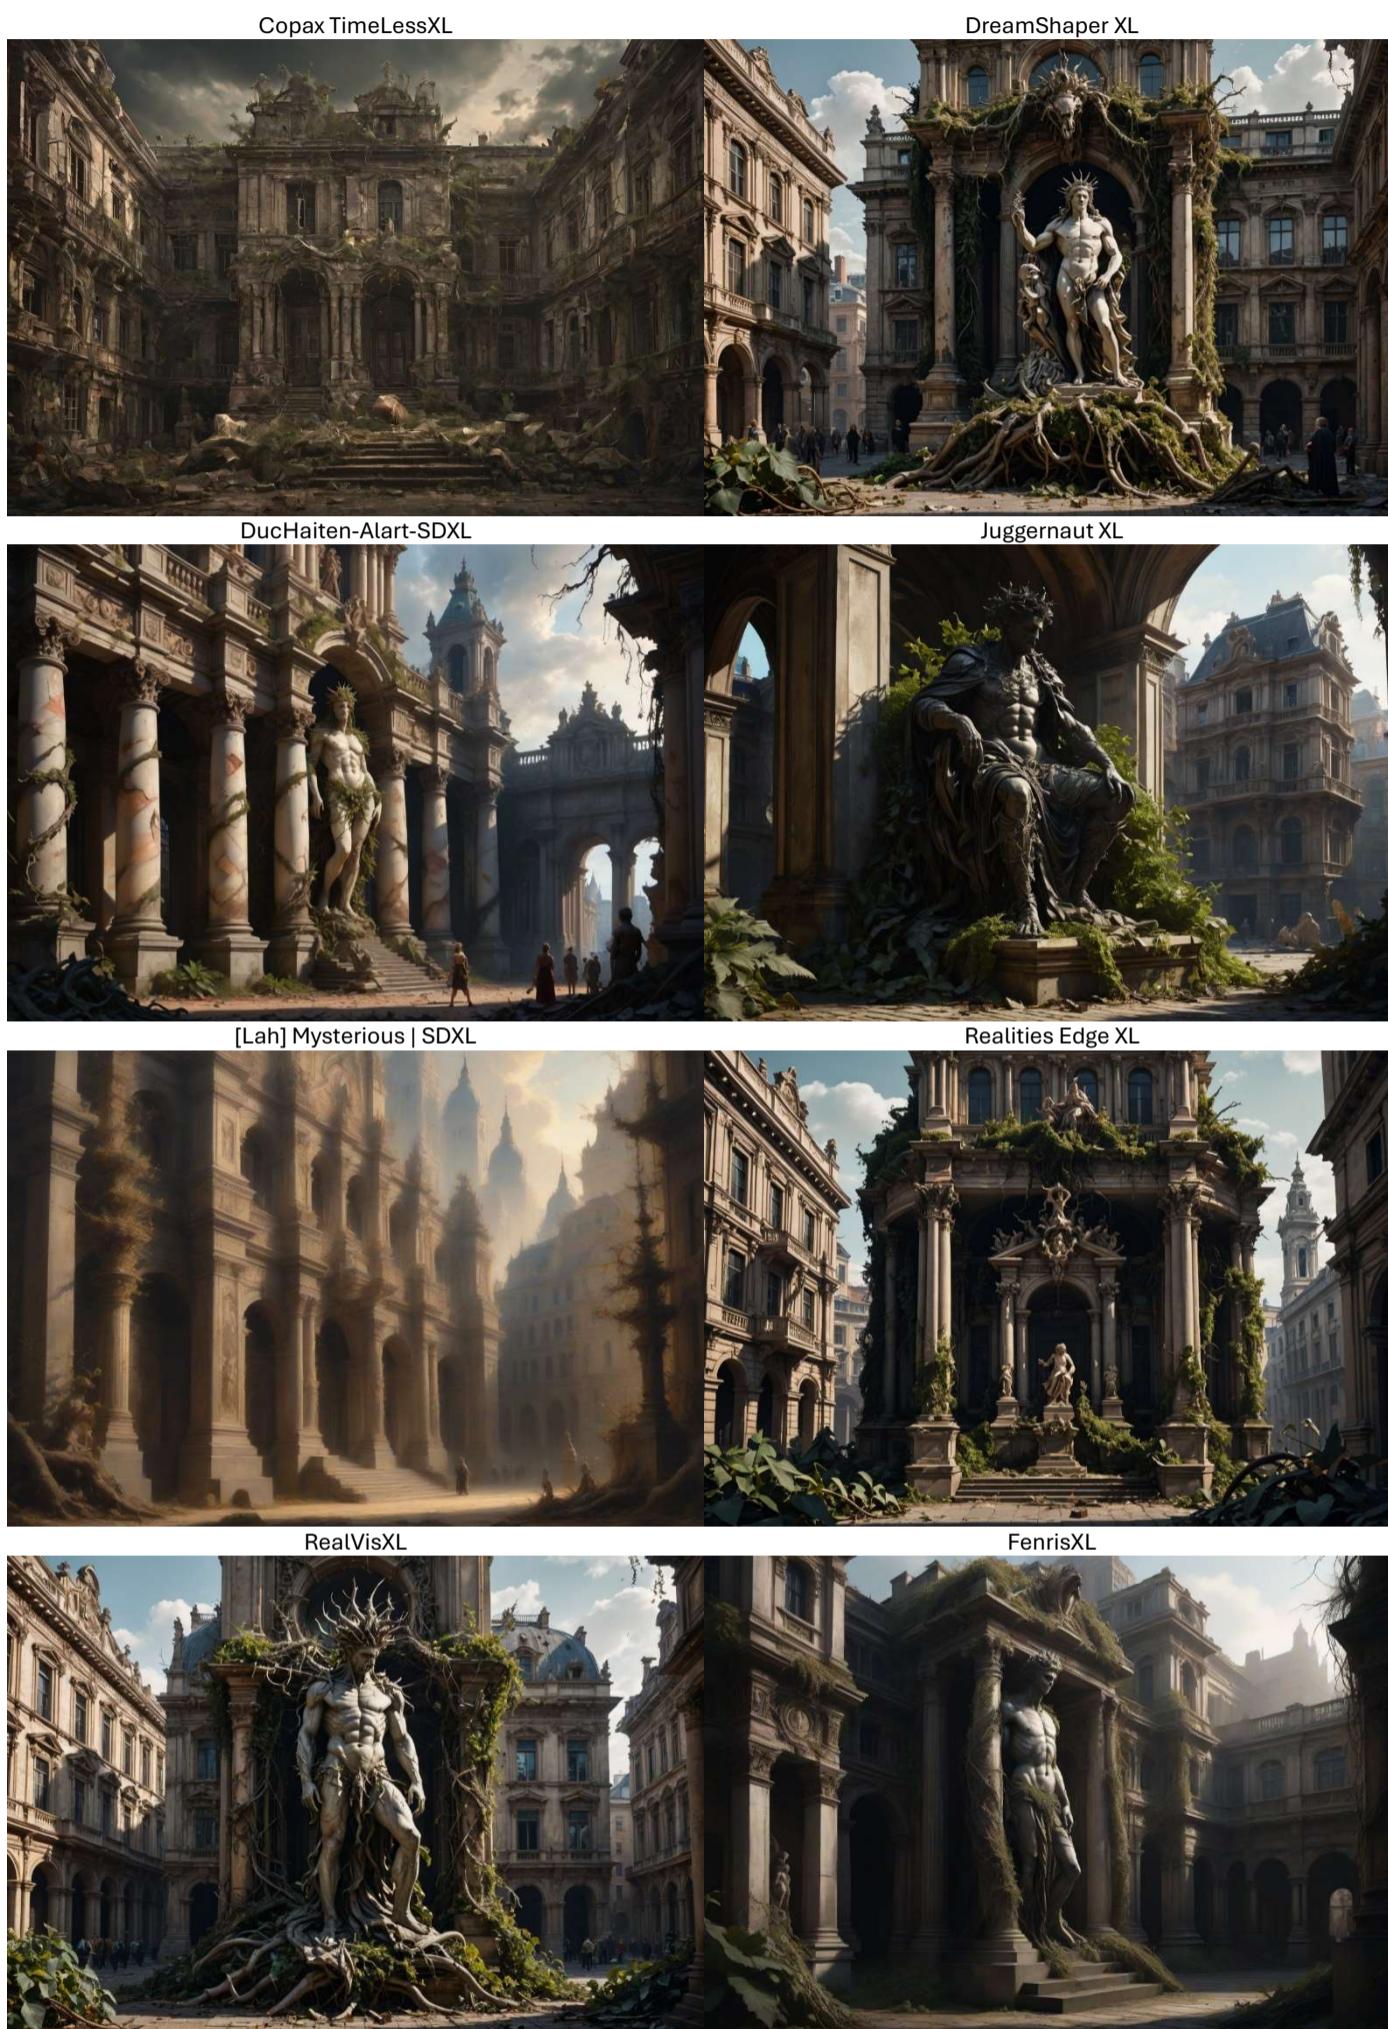

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 1044441835

Prompt #05 – Fragmented Decay:

Digital Abstract Illustration portraying a fragmented dystopian cityscape seen through a glitched, digital lens. The image uses broken pixels and sharp lines to convey the theme of digital decay, complementing the style of a dystopian cyber world. Inspired by the digital artistry of Beeple.

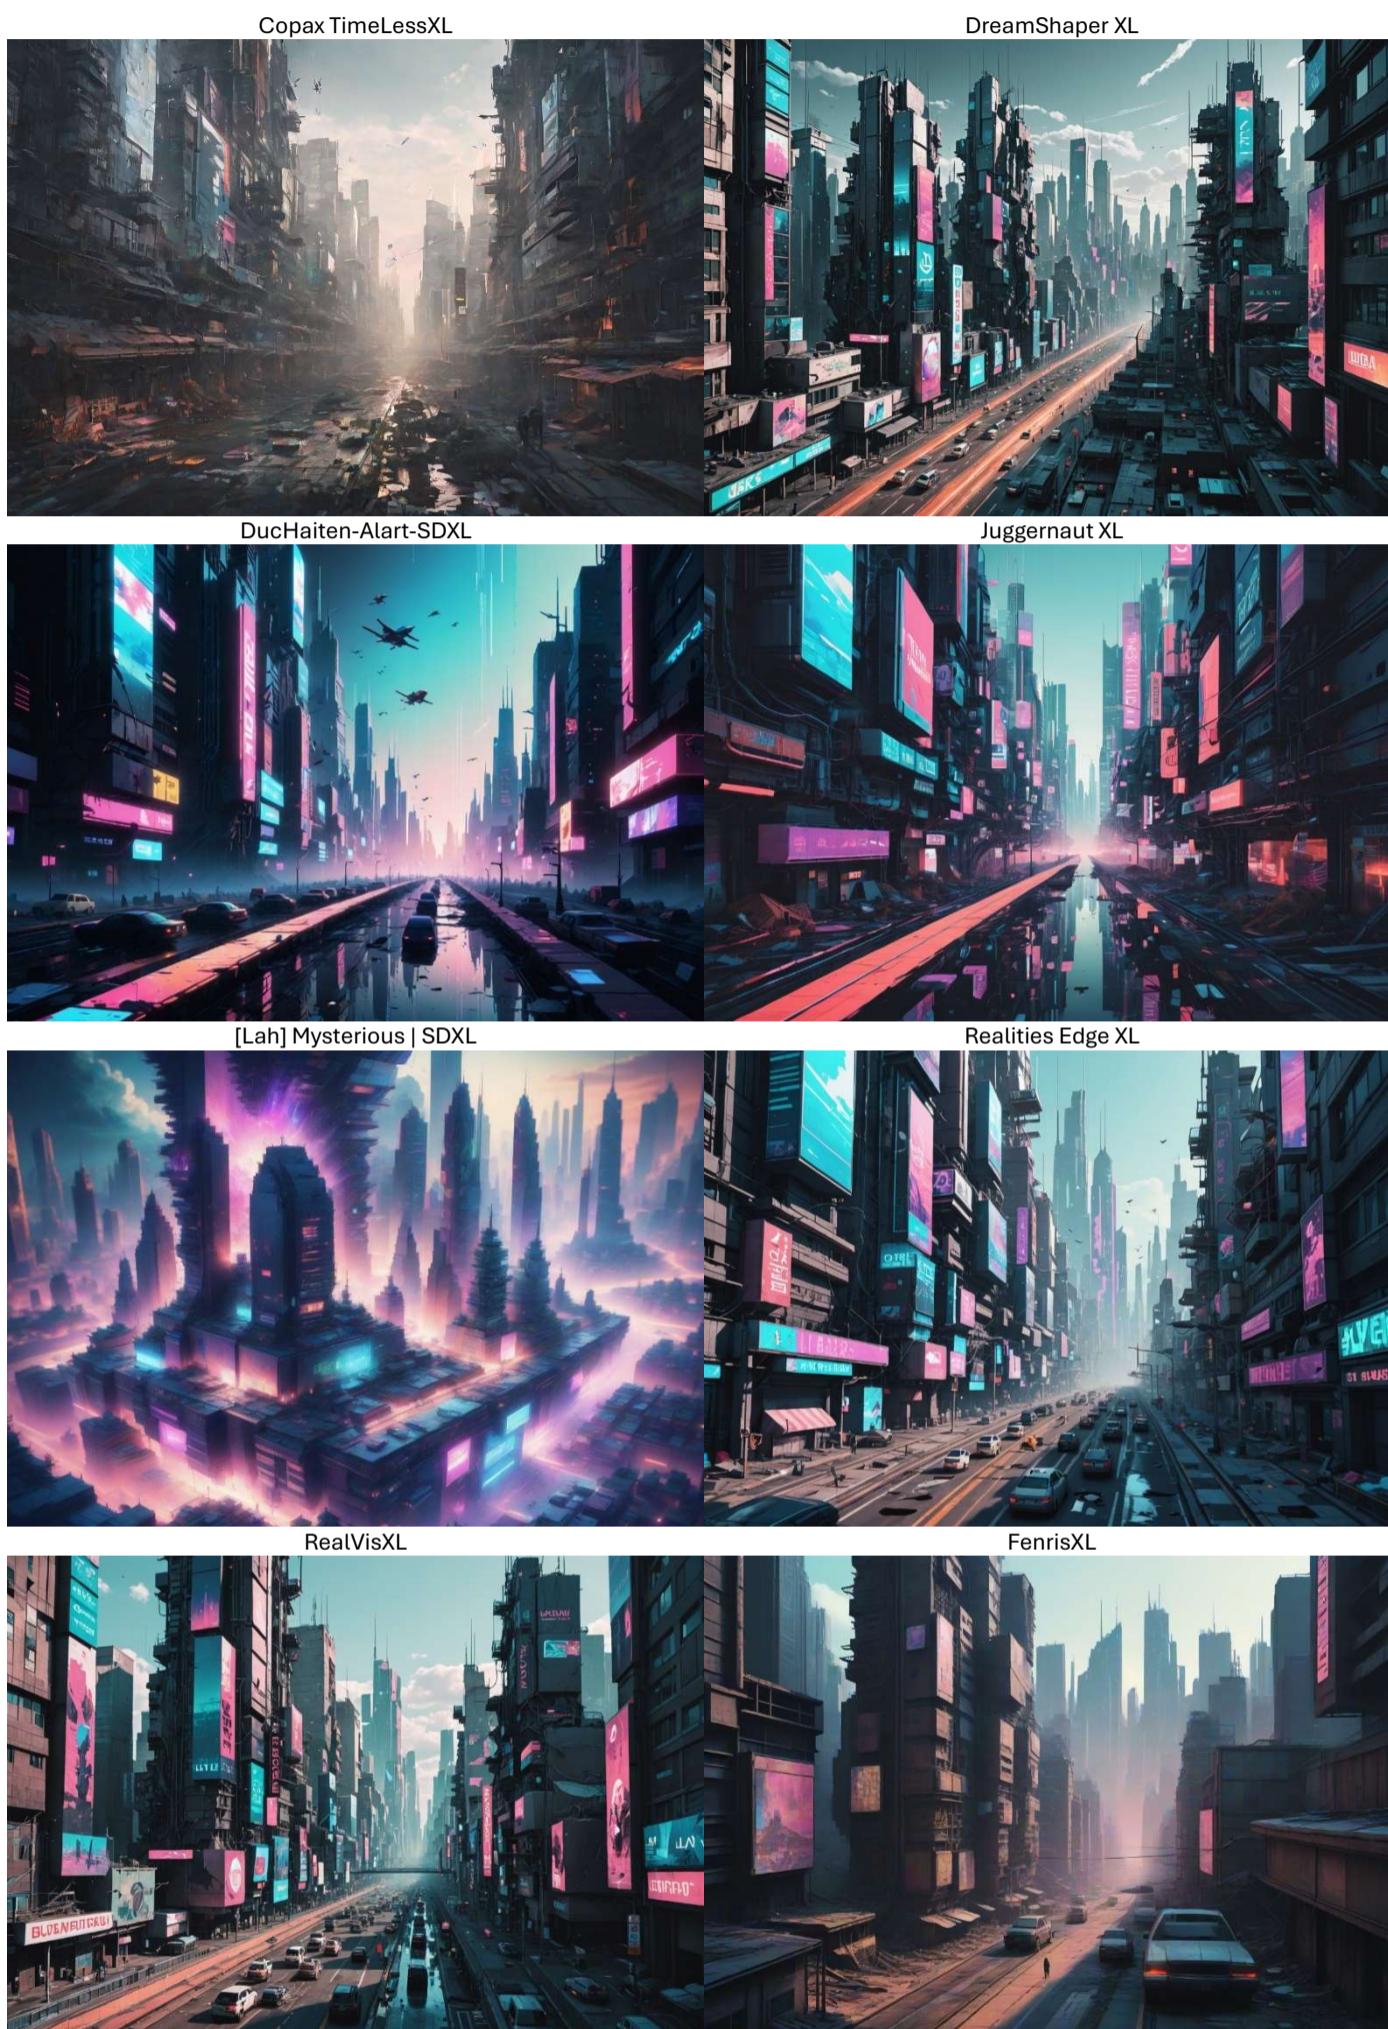

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 1677513309

Theme #02 - Purple Twilight Landscape:

Prompt #01 – Celestial Glow Over Fantasy Peaks:

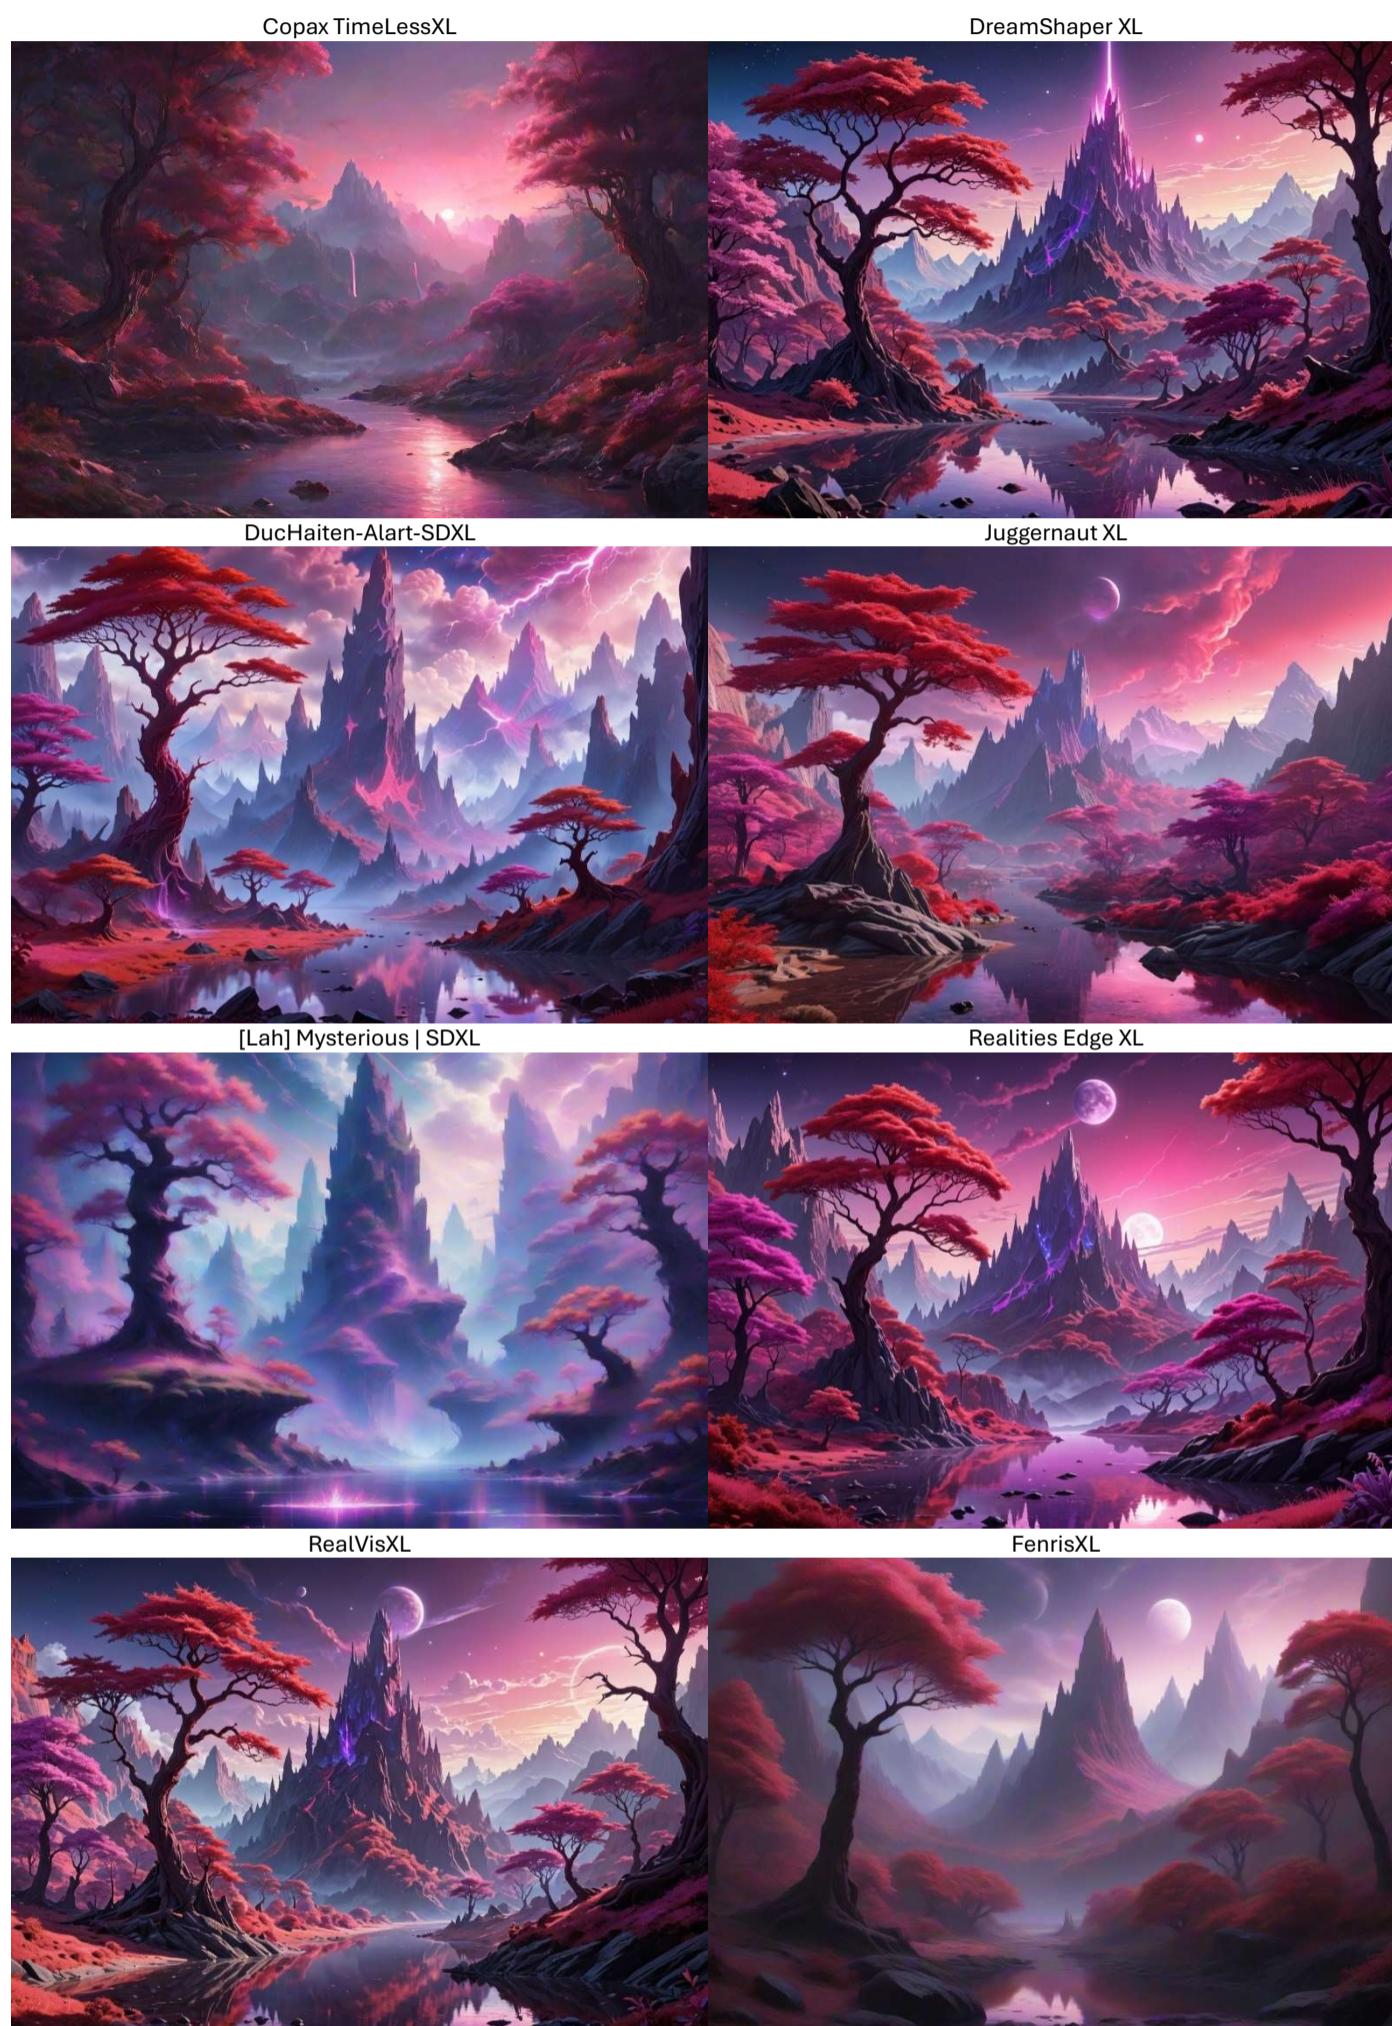

Surreal digital art of a fantastical landscape, featuring a luminous celestial river casting pink and purple glows. Jagged mountains and dense forests with red and purple foliage fill the background. A striking red-leaved tree stands prominently in the foreground. The art evokes a fantasy genre, reminiscent of the ethereal works of Roger Dean.

Negative: See above

Settings:

Resolution: 1216x832  
Seed: 2060938464

Steps/CFG/Sampler: See table for each model

Prompt #02 – Alien Wilderness at Dusk:

Sci-fi themed digital artwork of a fantastical landscape where a celestial river emits a luminous pink and purple glow. The setting includes sharp mountains and alien-like red and purple forests, with a notable red-leaved tree in the foreground, inspired by the surreal compositions of Moebius.

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 1721534743

Prompt #03 – Ethereal Visions of Purple Twilight:

Ethereal digital art piece set in a fantasy landscape with a celestial river radiating pink and purple light. The scene includes jagged mountain peaks and forests of red and purple foliage, creating an otherworldly atmosphere. In the foreground, a distinct red-leaved tree captures attention, styled similarly to Zdzisław Beksiński's surreal works.

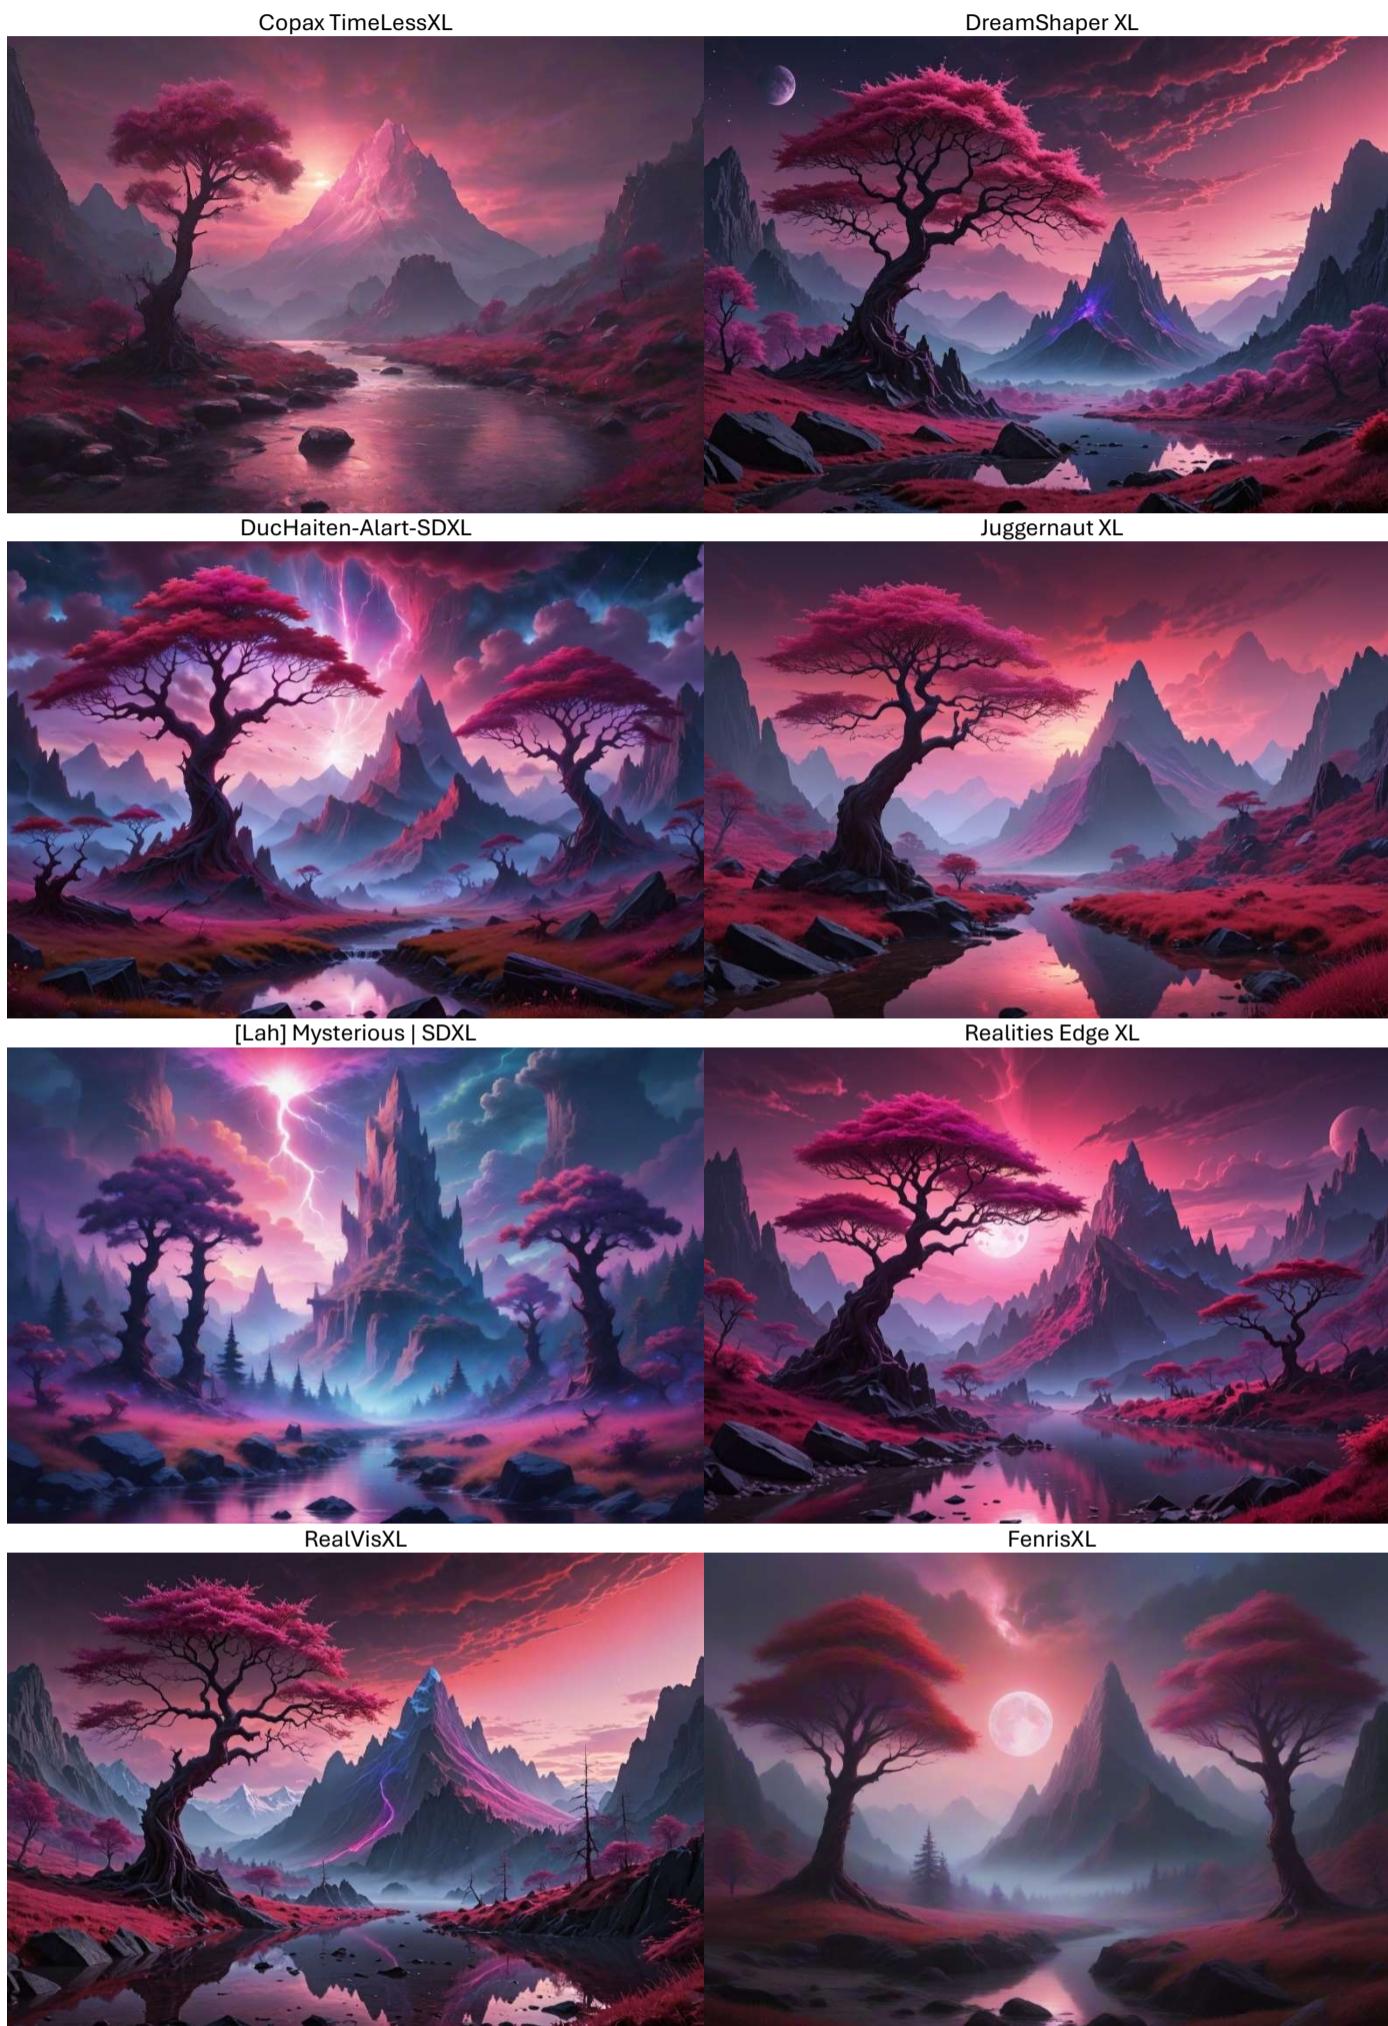

Negative: See above

Settings:

Resolution: 1216x832

Steps/CFG/Sampler: See table for each model

Seed: 1282406501

Prompt #04 – Otherworldly Radiance:

Surreal digital landscape depicting a celestial river casting radiant pink and purple lights across jagged mountains and mystical forests with red and purple leaves. A prominent red-leaved tree in the foreground anchors the composition, inspired by the fantasy art of Yoshitaka Amano.

Negative: See above
